Recognizing that education and growth towards wisdom is a never ending journey, SDH Schools strive to develop graduates who:

1. Have a growing relationship with the Triune God through Jesus Christ
2. Develop loving and respectful relationships with all people as God’s image bearers.
3. Demonstrate sensitivity to the needs, opinions and concerns of others while holding to personal convictions from a Biblical Christian Worldview.
4. Know the whole Story of God; recognizing that all of life can only be understood by knowing the truth of God’s sovereignty over all creation and over all history.
5. Celebrate God’s world, grieve the absence of shalom, critique where necessary, confront graciously and covet Christ-like community
6. Value and engage positively with the God-given institutions of family, church and government.
7. Demonstrate good stewardship in all areas of God's creation.
8. Demonstrate a deep appreciation of Indonesia, its culture and its people; with a commitment to serve and improve all aspects of society.
9. Understand that all abilities and talents are gifts from God, given to honor Him and benefit others.
10. Understand right from wrong and possess the strength of character to act accordingly.
11. Demonstrate levels of achievement that enable them to pursue university, or other further education, with confidence, faith, and maturity.
12. Demonstrate levels of fluency in at least two languages that enable them to work cooperatively, confidently, and persuasively with a wide range of people.
13. Understand and follow the norms for good health, physical fitness, and safety.
14. Understand and follow the proper use of technology with discernment, skill and integrity.
15. Demonstrate a love for the truth and continual learning in pursuit of the truth.
17. Understand, appreciate and demonstrate creativity and artistic expression.
18. Understand and appreciate a breadth of personalities, communities, cultures, and religions.
19. Demonstrate responsible Biblical Christian service and witness; humbly engaging in a life of redemptive restoration
20. Demonstrate knowledge and proficiency of scientific methods and approaches to arrive at informed and well-articulated opinions regarding current scientific topics.
21. Understand and live out a Biblical Christian worldview, appropriately applying biblical principles, knowledge, understanding and wisdom.
22. Understand the central ideas, methodologies, boundaries and limitations of various academic disciplines.
23. Demonstrate righteousness and mercy in all places, as citizens of God’s kingdom.
24. Demonstrate leadership abilities characterized by service, compassion, accountability, commitment, collaboration and the willingness to take risks
